Recreation Program Seasonal Vacancies for 2014
Outreach Announcement

The Bridger-Teton National Forest, a blue-green gem at the heart of the Continental Divide in northwestern Wyoming, is seeking top-notch candidates to fill a number of recreation program seasonal vacancies for 2014. Recreation aids and general recreation technicians typically work at developed campgrounds, backcountry cabins, picnic areas, overlooks and interpretive sites, utilizing strong maintenance skills in providing for public health and safety at these areas. Recreation technicians/Off-Highway Vehicle Rangers use key public contact skills to provide information regarding designated motorized routes, provide law-enforcement support, and build and install signs.

Vacant positions will be located on one or more of the following districts:

- Pinedale Ranger District
- Big Piney Ranger District
- Kemmerer Ranger District
- Greys River Ranger District

Length of season and number of positions will depend on budget and numbers of returning employees. Seasonal housing may be available, at in-town or remote guard station locations. Work usually requires weekends (including Sundays) and holidays; OHV positions typically extend into the fall. Positions anticipated include:

General Recreation Aids

- 8—GS3

General Recreation Technicians

- 4—GS4
- 6—GS5
- 1—GS6.

About the local areas: The Bridger-Teton National Forest is notably home to 3 world-class Wilderness Areas, being celebrated during this 50th anniversary year of the passage of the Wilderness Act. Fabulous, lesser-known backcountry areas also exist in the non-Wilderness districts of Greys River, Big Piney and Kemmerer. Jackson is the largest community, providing a western-urban atmosphere; the other communities are more 'frontier' than rural, either in the timbered mountains or lush valleys, or out on a high sage plateau populated mostly by pronghorn antelope. Trails positions and Wilderness rangers are being advertised in a separate announcement.

Temporary 1039 Positions: These are temporary seasonal positions not to exceed 1039 hours (6 months), typically lasting from 3 to 4 months. This notification is being circulated to inform interested individuals of these current opportunities. In past years the vacancies have been advertised under Open Continuous Recruitment (OCR) bulletins that did not have closing dates. **This process has changed. Applicants will now have to apply to specific Bridger-Teton National Forest vacancy announcements.**

- ONLY on-line applications are accepted through www.usajobs.gov.
- New applicants must create a new profile within USAJOBS.
- Contact any hiring manager below for vacancy announcement numbers

INSTRUCTIONS ON HOW TO APPLY FOR TEMPORARY 1039 POSITIONS:

All federal job openings are listed by the Office of Personnel Management on the USAJOBS website at: http://www.usajobs.opm.gov/. To find Forest Service positions on this website, look under **"Agency Search"** for the Department of Agriculture and scroll down to "Forest Service." For recruiting candidates for temporary positions, the Forest Service uses single location vacancies. Look on the USAJOBS website for the vacancy announcement. Each vacancy will have a detailed description of the process to follow when applying for the job. Another method to view anticipated jobs opening with the Forest Service is the database found on this website https://hrm.gdcii.com/outreach/Default.aspx
