

FOREST PRODUCTS REMOVAL REQUEST

Arapaho And Roosevelt National Forests U.S. Department Of Agriculture - Forest Service

How to Use This Form

The following form is not a valid permit! This form is for permit application only. Use the form by filling in the boxes below and returning the completed form via email to SM.FS.arpforprod@usda.gov. Once our office receives your form, you will be contacted via phone by Forest Service staff to process a credit card payment for the official permit. Once payment is received, a permit will be emailed to you with a Forest Service staff signature. The permit must then be printed, signed by the permit holder, and carried – filling out the “Product Quantity Removal Record” section of the permit as you cut; should a law enforcement officer need to check your permit and load.

Please Note

Forest Product permit regulations and application differ from forest to forest. Below highlights important difference to take note of:

This Form – Use the form below to apply for a Forest Product permit, by sending the completed form to SM.FS.arpforprod@usda.gov.

Signatures – The permit holder will be responsible for printing and signing your final Forest Product permit, which will be emailed to you once payment is received.

Load Tags – The permit holder will be responsible for carrying the printed, signed copy of their permit, and filling out the “Product Quantity Removal Record” as they cut. This will be taking the place of “Load Tags” should a Law Enforcement Officer need to check the load.

Closure Areas – Several locations throughout the forest remain closed to all users because they are within burned areas. It is the permit holder's responsibility to observe closure area boundaries. To check closure area status please visit: <https://www.fs.usda.gov/arp>.

By signing, the permit requestor acknowledges that they have read and understand the above _____

TRANSPLANT PERMIT

This permit with accompanying forms is valid to collect transplant trees or shrubs for personal use on National Forest lands within the Arapaho and Roosevelt National Forests on the specific Ranger District indicated on the attached signed permit (FS2400-1). This permit authorizes the permittee to collect the type and quantity of transplants indicated on the attached document. This permit is valid between May 1, 2023 and April 30, 2024.

The following rules must be read and agreed to before a permit will be issued:

- A valid permit is required before cutting and must be in your possession while digging, cutting, or transporting transplanted trees. A valid permit package consists of this document and a copy of the signed permit (FS2400-1).
- Respect private property. The Government is not responsible for people collecting trees on private land or crossing private land to access National Forest System lands.
- Closure orders may change throughout the year and may not be displayed on the permit map. Permit holder is responsible for observing all official road and area closures.
- Transplants may NOT be collected in wilderness areas or developed recreation sites, including campgrounds, picnic areas, summer home groups, or trailheads.
- Permits cost \$6 per aspen, \$10 per conifer less than 5 feet, \$2.50 per shrub and are valid as indicated from the date of purchase. Conifers greater than 5 feet in height are not to be dug up, cut, or transplanted.
- All trees removed must be within 12 feet of another living tree. Do not remove if another tree is further than 12 feet away.
- The maximum allowable size for aspen transplants is 1" diameter measured at breast height (4.5') but no greater than 15 ft in height. Aspen trees with a root collar diameter of 3" or greater will be counted as two trees against the cutting limit. For all conifers, the maximum allowable height is 5 ft.
- Tree must be hand dug only. Machine digging is prohibited. Holes from removed trees shall be refilled with surrounding dirt and be level with the ground surface.
- No digging is allowed within 50 feet of perennial streams or main forest and county roads,
- Please pack out all litter.
- Failure to comply with regulations may cause permit revocation and/or a fine.
- Extensions or refunds will not be granted.

PERMIT VALID BETWEEN May 1, 2023 AND April 30, 2024

I HAVE READ THE ABOVE RULES FOR COLLECTING TREE TRANPLANTS FROM NATIONAL FOREST LAND, AND UNDERSTAND WHAT IS REQUIRED OF ME.
