USDA, Forest Service

## PLAN OF OPERATIONS FOR MINING ACTIVITIES ON NATIONAL FOREST SYSTEM LANDS

FS-2800-5 (Rev. 3/08) OMB 0596-0022

		<u>S FORM IS OPTIONAL!</u> 1st TIME USERS SHOU IS (36 CFR 228A) TO THE FOREST SERVICE D		
Sul	omitted by:			
	<u></u>	Signature	Title	Date (mm/dd/yy)
		Signature	Title	Date (mm/dd/yy)
Pla	n Received by:			
	, <u>—</u>	Signature	Title	Date (mm/dd/yy)
		I. GENERAL II	NFORMATION	
A.	Name of Mine/Projec	t:		
B.	Type of Operation:		mill, exploration, development, produ	
C. D.	If continuing a previous operations. (check on	to (mm/dd/ss) of an aration.	es/□modifies/□supplements) a	
E.	Expected total durati			
F.	If seasonal, expected	date (mm/dd/yy) of annual reclar	mation/stabilization close out: _	
G	Expected date (mm/c	dd/yy) for completion of all require	ed reclamation:	
		II. PRIN	CIPALS	
A.	Name, address and p	hone number of operator:		
B.		phone number of authorized field o act on behalf of operator.	representative (if other than th	e operator).
C.	Name, address and p	hone number of owners of the cla	aims (if different than the opera	ator):

		III. PR	OPERTY OR	AREA		
MC#	(Name of clair	m, if applicable, and the leg <b>Name</b>	al land descript	ion where the ope Section	ration will be located.)  Township	Range
	_					
_		IV. DESCRIPT USGS quadrangle map or a				
			nd size of culve	erts, describe mai	intenance plans, and th	include consti he type and s
		s, grades, etc., location a will use the access routes.	nd size of culve	erts, describe mai	intenance plans, and th	he type and s
vehicles an	d equipment that v	will use the access routes.			intenance plans, and th	he type and s
Map, Sket	ch or Drawing. ize and kind of al ps, drill pads, tin		ut of the area o h as trenches,	f operation. Identi pits, settling pond	intenance plans, and the internance plans, and the internal plan	he type and s or springs if I d run-off dive
Map, Sket Show the swaste dum	ch or Drawing. ize and kind of al ps, drill pads, tin	will use the access routes.  Show location and layo Il surface disturbances suc	ut of the area o h as trenches,	f operation. Identi pits, settling pond	intenance plans, and the internance plans, and the internal plan	he type and s or springs if i d run-off dive

C.	<b>Project Description.</b> Describe all aspects of the operation including mining, milling, and exploration methods, materials, equipment, workforce, construction and operation schedule, power requirements, how clearing will be accomplished, topsoil stockpile, waste rock placement, tailings disposal, proposed number of drillholes and depth, depth of proposed suction dredging, and how gravels will be replaced, etc. Calculate production rates of ore. Include justification and calculations for settling pond capacities, and the size of runoff diversion channels.
D.	Equipment and Vehicles. Describe that which is proposed for use in your operation (Examples: drill, dozer, wash plant, mill, etc.). Include: sizes, capacity, frequency of use, etc.
<u>E</u> .	Structures. Include information about fixed or portable structures or facilities planned for the operation. Show locations on the
	map. Include such things as living quarters, storage sheds, mill buildings, thickener tanks, fuel storage, powder magazines, pipelines, water diversions, trailers, sanitation facilities including sewage disposal, etc. Include engineering design and geotechnical information for project facilities, justification and calculations for sizing of tanks, pipelines and water diversions, etc.
Α.	V. ENVIRONMENTAL PROTECTION MEASURES (SEE 36 CFR 228.8)  Air Quality. Describe measures proposed to minimize impacts on air quality such as obtaining a burning permit for slash disposal
	or dust abatement on roads.

B.	. Water Quality. State how applicable state and federal water qual	ality standards will be met. Describe measures o
	management practices to be used to minimize water quality impacts and m	neet applicable standards.
	1. State whether water is to be used in the operation, and describe the	e quantity, source, methods and design of diversions

 State whether water is to be used in the operation, and describe the quantity, source, methods and design of diversions storage, use, disposal, and treatment facilities. Include assumptions for sizing water conveyance or storage facilities.

2. Describe methods to control erosion and surface water runoff from all disturbed areas, including waste and tailings dumps.

3. Describe proposed surface water and groundwater quality monitoring, if required, to demonstrate compliance with federal or state water quality standards.

4. Describe the measures to be used to minimize potential water quality impacts during seasonal closures, or for a temporary cessation of operations.

5. If land application is proposed for waste water disposal, the location and operation of the land application system must be described. Also describe how vegetation, soil, and surface and groundwater quality will be protected if land application is used.

C. Solid Wastes. Describe the quantity and the physical and chemical characteristics of solid waste produced by the operation. Describe how the wastes will be disposed of including location and design of facilities, or treated so as to minimize adverse impacts.

D. Scenic Values. Describe protection of scenic values such as screening, slash disposal, or timely reclamation.

Fish and Wildlife. Describe measures to maintain and protect fisheries and wildlife, and their habitat (includes threatened, endangered, and sensitive species) affected by the operations.
Cultural Resources. Describe measures for protecting known historic and archeological values, or new sites in the project area.
Gartan and the control of the project and an analysis of the manage of the manage of the control
<ul> <li>Hazardous Substances.</li> <li>1. Identify the type and volume of all hazardous materials and toxic substances which will be used or generated in the operations including cyanide, solvents, petroleum products, mill, process and laboratory reagents.</li> </ul>
<ol> <li>For each material or substance, describe the methods, volume, and frequency of transport (include type of containers and vehicles), procedures for use of materials or substances, methods, volume, and containers for disposal of materials and substances, security (fencing), identification (signing/labeling), or other special operations requirements necessary to conduct the proposed operations.</li> </ol>
3. Describe the measures to be taken for release of a reportable quantity of a hazardous material or the release of a toxic substance. This includes plans for spill prevention, containment, notification, and cleanup.

	Reclamation. Describe the annual and final reclamation standards based on the anticipated schedule for construction, operations, and project closure. Include such items as the removal of structures and facilities including bridges and culverts, a revegetation plan, permanent containment of mine tailings, waste, or sludges which pose a threat of a release into the environment closing ponds and eliminating standing water, a final surface shaping plan, and post operations monitoring and maintenance plans.		
	VI. FOREST SERVICE EVALUATION OF PLAN OF OPERATIONS		
A.	Required changes/modifications/special mitigation for plan of operations:		
<u>B</u> .	Bond. Reclamation of all disturbances connected with this plan of operations is covered by Reclamation Performance Bond No, dated (mm/dd/yy), signed by (Principal) and (Surety), for the penal sum of This Reclamation Performance Bond is a guarantee of faithful performance with the terms and conditions listed below, and with the reclamation requirements agreed upon in the plan of operations. This		
	conditions listed below, and with the reclamation requirements agreed upon in the plan of operations. This Reclamation Performance Bond also extends to and includes any unauthorized activities conducted in connection with this operation.		
	The bond amount for this Reclamation Performance Bond was based on a bond calculation worksheet. The bond amount may be adjusted during the term of this proposed plan of operations in response to changes in the operations or to changes in the economy. Both the Reclamation Performance Bond and the bond calculation worksheet are attached to and made part of this plan of operations. Acceptable bond securities (subject to change) include:		

## VII. TERMS AND CONDITIONS

- A. If a bond is required, it must be furnished before approval of the plan of operations.
- B. Information provided with this plan marked confidential will be treated in accordance with the agency's laws, rules, and regulations.
- C. Approval of this plan does not constitute certification of ownership to any person named herein and/or recognition of the validity of any mining claim named herein.
- D. Approval of this plan does not relieve me of my responsibility to comply with other applicable state or federal laws, rules, or regulations.
- E. If previously undiscovered cultural resources (historic or prehistoric objects, artifacts, or sites) are exposed as a result of operations, those operations will not proceed until notification is received from the Authorized Officer that provisions for mitigating unforeseen impacts as required by 36 CFR 228.4(e) and 36 CFR 800 have been complied with.
- F. This plan of operations has been approved for a period of \_\_\_\_\_ or until (mm/dd/yy) \_\_\_\_\_. A new or revised plan must be submitted in accordance with 36 CFR part 228, subpart A, if operations are to be continued after that time period.

  VIII. OPERATING PLAN ACCEPTANCE

  \_\_\_\_\_\_\_I/\_\_We have reviewed and agreed to comply with all conditions in this plan of operations including the required changes, modifications, special mitigation, and reclamation requirements.

  \_\_\_\_\_\_\_I/\_\_We understand that the bond will not be released until the Authorized Officer in charge gives written approval.

☐I/☐We understand that the bond will not be released until the Authorapproval.	orized Officer in charge gives written
Signature of Operator (or Authorized Representative)	(Date) (mm/dd/yy)
IX. OPERATING PLAN APPROVA	L
(Name)	(Title)
Signature of (Authorized Officer)	(Date) (mm/dd/yy)

## **Burden and Non-Discrimination Statement**

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0596-0022. The time required to complete this information collection is estimated to average 12 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call toll free (866) 632-9992 (voice). TDD users can contact USDA through local relay or the Federal relay at (800) 877-8339 (TDD) or (866) 377-8642 (relay voice). USDA is an equal opportunity provider and employer.
