## Annual Operating Instructions

### I. INTRODUCTION

Kaitlin Burrows (Forest Service) met with Charlie Judd (Permittee) on January 27<sup>th</sup>, 2023, to discuss management of the Sacaton Allotment during the current grazing year and to plan grazing management for the upcoming grazing season. These Annual Operating Instructions are the result of that discussion.

**\*Stocking will be dependent on summer rainfall and range conditions in fall. Will decide and update AOI and bill for numbers prior to entry on 12/01/2022**

#### **Pasture Rotations:**

| <b>Class of Livestock</b> | <b>Rotation Date</b> | <b>Pasture</b>   |
|---------------------------|----------------------|------------------|
| Cow/Calf                  | 03/01 – 06/30        | Entire Allotment |
| Cow/Calf                  | 12/01 – 02/28        | Entire Allotment |

**NOTE:** The above schedule for stocking the allotment depends upon the availability of forage and water. Some flexibility in the above pasture rotation dates will be allowed for justifiable causes such as weather conditions, livestock management needs, and range conditions. If there is a need to deviate from the above pasture rotation schedule by more than 15 days, you must notify the Range Staff at the Glenwood Ranger District of the proposed change in the pasture rotation date and the reason for the change. A deviation from the above schedule of more than 15 days must be approved verbally or in writing. Credit/Refund applications will not be processed unless District personnel have been notified either in advance or at the time of removal of stock.

### II. MANAGEMENT OF LIVESTOCK

The permittee is responsible for monitoring water availability and forage utilization and moving

livestock when sufficient water is no longer available or when proper forage utilization is achieved in a pasture. The permittee is responsible for keeping track of and maintaining control of livestock. In the event livestock are found to be out of the scheduled pasture, it is required to find, gather, and return those animals to the proper pasture as soon as possible.

### **III. IMPROVEMENT MAINTENANCE**

All range improvements assigned in the 10-year Term Grazing Permit are to be maintained in a functioning condition. In the event these improvements cannot be brought up to a functioning condition, you should notify the Range Staff at the Glenwood Ranger District to schedule them for reconstruction as funds become available.

- You are authorized to cut juniper and brush in a thirty-foot radius on all existing stock tanks. You will lop and scatter all slash to a two-foot height. Firewood may be removed by persons with the appropriate permit

### **IV. SPECIAL MANAGEMENT CONCERNS**

Keep track of conditions on your allotment. Make plans to reduce or remove livestock if vegetative/watershed conditions could be substantially harmed due to continued grazing.

### **V. MODIFICATIONS**

If unforeseen operational conditions require a change in the management specified in this AOI please contact rangeland management personnel at the Glenwood Ranger District. Change requests should be made in advance so that field inspections (if necessary) can be conducted. Approval of changes to this AOI may be verbal or written, depending on the nature of the change requested. Verbal changes will be documented to your file for record keeping purposes. Failure to follow the direction provided in this AOI, or other instructions (verbal or written) of a Forest Officer may lead to adverse action against your Term Grazing Permit (Part 1, Section 3 of your Term Grazing Permit).

Open and positive communications concerning all AOI content is encouraged. Feel free to contact Kendall Brown if you have any questions or concerns.
