Sundial Road, below San Francisco hot springs. Cows were spotted last friday. Range staff talked to permittee, supposed to have gotten cows out and repaired water gap. Rained during weekend, San Francisco running a lot faster.

Drought Indicator: **No**

Livestock Presence/Absence

Were livestock present? **No**

Old cown sign from last week. But no recent sign

Older cow tracks, from weekend possibly.

Water running really well.

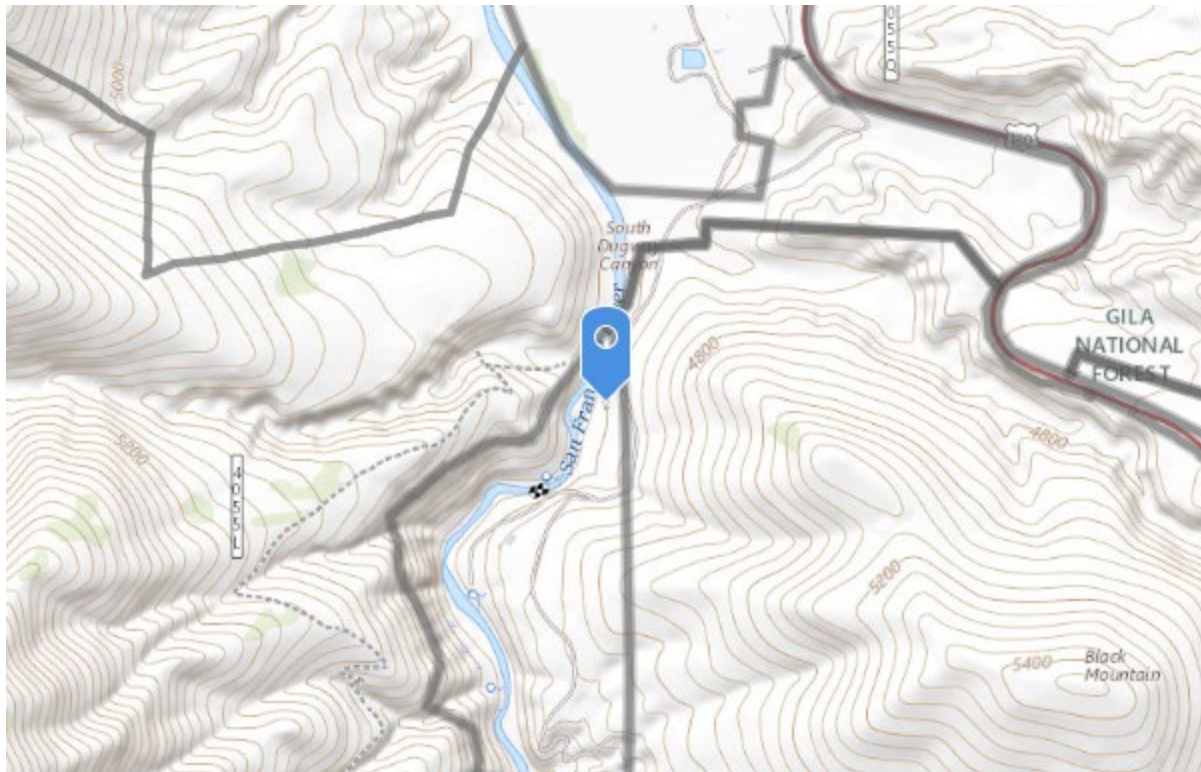

Water gap still down, water level a lot higher then last week. The permittee werent able to fix water gap but proped it up to the waters edge.

Water gap down.
