BEAVER, UT, June 14<sup>th</sup>, 2024 – The Little Twist fire is currently 857 acres and is still within the target treatment area. Resources on this incident include 3 hot shot crews, 2 Type 2 IA crews, the Tushar Mountain module, 4 local engines, as well as 1 Type 1 and 2 Type 2 helicopters. Fire personnel will continue working toward confinement, utilizing aerial resources to assist in reaching overall objectives. This incident will transition to a local Type 3 team tomorrow morning.

For your safety, please avoid accessing Forest Road #137 (Kents Lake Road) past Upper Kents Lake, Anderson Meadow and Lebaron Campgrounds and Recreation sites, as well as the South Creek area. Little Reservoir, Tushar Lakeside and Kents Lake Campground are still accessible. The Forest Service will notify the public when allowed to re-enter the specified areas.
