

Avenza Instructions

For Android and iPhone

Cell phone Settings-Make sure location is turned on

Cell phone Apps-Search Avenza, Tap Avenza Maps-Offline Mapping by Avenza Systems Inc., Tap Install button

Open Avenza App

Sign in with e-mail and password (create one if a new user)

Android and iPhone instructions vary slightly for standard download and using QR Codes, the codes are universal

For Android-Tap shopping cart at bottom right of page (Store)

A list of maps available will appear using your current location. To narrow the results, tap the search box at the top and add the keyword MVUM for the free Motor Vehicle Use Maps, click search. A list will appear. Next, filter results using the Filter symbol on the left-hand side of the blue banner, select free, and select apply. Find the preferred map, click on it to preview, click free, and download when prompted. All downloaded maps are stored on the opening page accessed by clicking the maps symbol on bottom left corner. If searching for a map in another location, tap the search box at the top and enter that forest (ie. Caribou-Targhee National Forest), then proceed following the remaining instructions.

For iPhone-Avenza instructions vary slightly between the iPhone and the Android systems. After downloading, installing, and logging into the Avenza app on the iPhone (make sure location is turned on), Tap the (+) symbol in the top right corner, do not go to the shopping cart. Choose get map from store. Tap search bar -find maps-then, Tap the filter symbol in the top right corner, Swipe free only, Uncheck all selections except Recreation. Return to Main screen, you should only see pins of maps in surrounding area. Tap blue pin and Tap install twice. Your map will download and is located where you first open the app in My Maps. You can search for a specific map from after tapping the (+), choose get map from map store, and then enter your forest name in the search bar. Then, follow the previous download instructions. If you want to purchase the more detailed Forest map for \$4.99 it is easiest to use the QR Code.

Note: The pdf forest travel plan maps are free. The Forest Maps are available for the purchase of \$4.99, do not use the filter of free maps for this, but you can use the enclosed QR code.

Challis-Yankee Fork West

Challis East Half

\$4.99

Challis West Half

\$4.99

Salmon East Half

\$4.99

Salmon West Half

\$4.99

QR Codes are a shortcut that your camera scans to take you directly to the map you would like to download.

For Android- Once you install Avenza, log in, and turn on your phone location settings, Tap the Orange circle with a plus sign on the bottom right, Tap Download or import a map, this is the next Orange circle with an underlined arrow, Tap the top right corner (QR symbol that looks like four squares) if this is first time using, Accept allow camera use. Hold phone camera above the QR code of the map you want, it helps to cover the extra codes with your hand. Wait approximately 5 seconds for a new page to open (Get the App Get the Map Banner), Scroll Down, and Tap the Red button (Get This Map), then Tap Free button and download when prompted. Note, there are Forest Visitor Maps available for purchase, and if searched for, many other maps catering to a variety of needs. Repeat this scan method for each additional map. Downloaded Maps are located in My Maps.

For iphone-Avenza instructions vary slightly between the iphone and the Android systems. After downloading, installing, and logging into the Avenza app on the iphone (make sure location is turned on), Tap the (+) symbol in the top right corner. If this is the first time using, to avoid an error code, you have to download one map the standard way prior to using the QR Codes. First, Choose get map from store. Tap search bar –find maps-then, Tap the filter symbol in the top right corner, Swipe free only, Uncheck all selections except Recreation. Return to Main screen and tap blue pin, Tap Install twice. Now the QR Codes will download. From My Maps page, Tap (+), Tap the QR reader square symbol to scan each map, (**Allow Camera Access**), Hold phone over QR code, Tap install twice. Maps are located in My Maps.
