

# Central Zone of the Nez Perce-Clearwater National Forests

## Trail Report

(including the Selway-Bitterroot Wilderness)

**Updated September 20, 2023**

Fires on the Nez Perce-Clearwater National Forest have resulted in several trail closures on the Central Zone. This report reflects the closures as of the publication date. For the latest Fire information visit:

[https://www.fs.usda.gov/detail/nezperceclearwater/home/?cid=fsm91\\_055753](https://www.fs.usda.gov/detail/nezperceclearwater/home/?cid=fsm91_055753)

This report provides information on trails that have been cleared by Forest Service personnel, contractors, partners and volunteers. If a trail is highlighted in **green**, it has been worked on during the 2023 season. Trails highlighted in **red** are closed, in part, or in full, by a Forest Order. If a trail is listed but not highlighted, the notes will say when it was last cleared. If a trail is not listed at all, it most likely has not had any work done on it for at least the past few seasons.

Visitors are welcome to travel on any trails on the National Forest, but need to be aware of the potential for downfall and hazards, especially if the trail has not been cleared. Even if trails are listed as having been cleared this season, there could be new downfall from weather events and/or wildfires that have occurred since the trail was cleared. Numerous trails on the Nez Perce-Clearwater National Forests were impacted in the 2015-17 seasons by wildland fires and by other weather events. In recently-burned areas, hazards exist and include falling trees, rolling logs and rocks, poor tread, and holes from burned-out stumps. Please consider these hazards when entering the area and make appropriate safety considerations, which may include changing your travel plans. Be aware that conditions may change quickly.

In 2017, 2018, and 2019 weather events led to numerous large slides affecting roads and trails. Some access roads to trailheads may still be blocked by slides. You can view updated road information at <https://www.fs.usda.gov/alerts/nezperceclearwater/alerts-notice>.

**Visitors are encouraged to contact local Ranger District offices for current road and trail information, and for possible closures due to fire.** More trail, road and recreation information for Nez Perce-Clearwater National Forests is also available at: <https://www.fs.usda.gov/nezperceclearwater/>.
