

**Date:** January 9, 2020

Due to technical errors, the Table of Contents in the Draft Forest Plan has page numbering that doesn't match where sections are found in the document.

To address this we are including an errata in our Draft Forest Plan to replace the Table of Contents.

We apologize for any inconvenience this may have caused.

Thank you for your patience,

The Plan Revision Team

# Table of Contents

## Contents

|   |           |
|---|-----------|
| Commonly Used Acronyms .....  | ix        |
| <b>Chapter 1 – Introduction .....</b>   | <b>1</b>  |
| Purpose of this Document.....   | 1         |
| Forest Plans and the 2012 Planning Rule.....  | 1         |
| Collaboration and Public Involvement .....  | 1         |
| A Description of the Gila National Forest.....  | 2         |
| The Vision .....  | 4         |
| Assessment Summary .....  | 7         |
| Needs for Change Summary.....   | 8         |
| Plan Components, Management/Geographic Areas, Suitability of Lands and Other Content..... | 11        |
| Plan Components .....   | 11        |
| Organization of Plan Components .....   | 12        |
| Other Required Plan Content .....   | 13        |
| Optional Plan Content.....  | 13        |
| Key Plan Concepts .....   | 13        |
| Plan Consistency.....   | 15        |
| Transition in the Implementation of the Forest Plan .....                                 | 15        |
| Plan Implementation.....  | 15        |
| An Integrated Approach .....  | 16        |
| Monitoring and Evaluation.....  | 16        |
| Chapter 1 References .....  | 16        |
| <b>Chapter 2 – Forest-wide Plan Direction.....</b>  | <b>17</b> |
| Plan Management Approaches.....   | 17        |
| Management Approach to Change and Uncertainty .....                                       | 17        |
| Management Approach to Restoration.....   | 23        |
| Ecosystems and Watersheds .....   | 25        |
| Background and Description .....  | 25        |
| All Upland Ecological Response Units .....  | 32        |
| Background Information .....  | 32        |
| Landscape-scale Desired Conditions (1,000 to 10,000+ acres).....                          | 32        |

|  |     |
|--|-----|
| Standards.....   | 33  |
| Guidelines.....  | 34  |
| Management Approaches.....   | 34  |
| Forested Ecological Response Units.....                              | 38  |
| Woodland Ecological Response Units.....                              | 60  |
| Shrubland Ecological Response Units.....                             | 70  |
| Grassland Ecological Response Units.....                             | 72  |
| Soils.....   | 76  |
| Water Quality.....   | 81  |
| Watersheds.....  | 83  |
| Riparian and Aquatic Ecosystems.....                                 | 88  |
| Cliffs and Rocky Features.....                                       | 97  |
| Caves and Abandoned Mine Lands.....                                  | 99  |
| Wildlife, Fish, and Plants.....                                      | 102 |
| Rare and Endemic Plant and Animal Species and Habitats.....          | 108 |
| Non-native Invasive Species.....                                     | 110 |
| Air Quality.....   | 117 |
| Social, Cultural, and Economic Sustainability and Multiple Uses..... | 121 |
| Community Relationships.....   | 122 |
| Tribal Importance and Use.....                                       | 124 |
| Cultural Resources.....  | 127 |
| Wildland Fire and Fuels Management.....                              | 131 |
| Water Uses.....  | 138 |
| Livestock Grazing.....   | 142 |
| Timber, Forest, and Botanical Products.....                          | 149 |
| Lands.....   | 157 |
| Special Uses (Lands).....  | 162 |
| Minerals.....  | 165 |
| Locatable Minerals.....  | 165 |
| Salable Mineral Materials.....                                       | 169 |
| Roads.....   | 171 |
| Facilities.....  | 174 |
| Sustainable Recreation.....  | 177 |
| Developed Recreation.....  | 181 |

Dispersed Recreation ..... 183

Special Uses (Recreation) ..... 185

Scenic Character ..... 187

Trails ..... 190

Motorized Trails..... 194

Non-motorized Trails..... 196

**Chapter 3 – Designated and Management Area Plan Direction..... 197**

Designated Areas ..... 197

Wilderness..... 197

Wilderness Study Areas..... 207

Inventoried Roadless Areas..... 209

Research Natural Areas ..... 212

Continental Divide National Scenic Trail ..... 215

National Recreation Trails ..... 219

National Scenic Byways ..... 221

Management Areas ..... 223

Wildland-urban Interface ..... 223

Recommended Wilderness ..... 226

Eligible Wild and Scenic Rivers ..... 233

Rare and Endemic Vegetation Management Areas..... 238

Proposed Research Natural Areas..... 240

Utilities Management Area ..... 243

**Chapter 4 – Suitability and Estimated Vegetation Management Practices..... 245**

Timber Suitability ..... 245

Estimated Vegetation Management Practices ..... 248

Projected Harvest Levels ..... 248

**Chapter 5 – Monitoring Plan ..... 251**

Introduction ..... 251

Program Purpose..... 251

Requirements..... 252

Types of Monitoring ..... 252

Implementation..... 252

Effectiveness..... 252

Validation ..... 252

Guiding Principles.....253

Coordination, Collaboration and Capacity Building .....253

Reporting.....253

Monitoring and Evaluation Program .....253

    Minimum Required Monitoring .....255

    Potential Additional Monitoring As Capacity Allows.....260

**Appendix A – Consistency with Plan Components ..... 275**

**Appendix B – Proposed and Possible Management Practices ..... 279**

    Introduction .....279

    Relationships .....279

    Restoration .....279

    Wildland-urban Interface .....281

    Wildlife, Fish, Plants .....281

    Timber and Forest Products .....282

    Livestock Grazing.....282

    Cultural Resources.....282

    Tribal Relations.....283

    Recreation .....283

    Trails .....284

    Roads.....284

    Facilities.....284

    Lands .....285

    Mineral and Energy Uses.....285

    Special Uses.....285

    Caves .....286

    Designated Areas .....286

    Monitoring, Adaptive Management, and Capacity Building.....287

**Appendix C – Maps ..... 289**

    Designated wilderness and inventoried roadless areas.....289

    Wilderness study areas .....290

    Recommended wilderness.....291

    Designated and proposed research natural areas .....292

    Continental Divide National Scenic Trail and national recreation trails.....293

    National scenic byways .....294

|  |            |
|--|------------|
| Eligible wild and scenic rivers.....             | 295        |
| Rare and endemic plant management areas .....    | 296        |
| Wildland-urban interface .....                   | 297        |
| Utility corridors .....                          | 298        |
| Existing recreation opportunity spectrum .....   | 299        |
| Desired recreation opportunity spectrum .....    | 300        |
| Scenery Management System.....                   | 301        |
| <b>Appendix D – Focal Species Rationale.....</b> | <b>303</b> |
| <b>Common Black Hawk .....</b>                   | <b>303</b> |
| Habitat Description .....                        | 303        |
| Plan Desired Conditions .....                    | 303        |
| Home Range .....                                 | 304        |
| Nest or Territory Density .....                  | 304        |
| Analyses in the Gila NF.....                     | 304        |
| <b>Mexican Spotted Owl .....</b>                 | <b>305</b> |
| Habitat Description .....                        | 305        |
| Plan Desired Conditions .....                    | 306        |
| Critical Habitat.....                            | 307        |
| Home Range .....                                 | 308        |
| Nest/Territory Density.....                      | 308        |
| Analyses in the Gila NF.....                     | 308        |

## List of Tables

|  |     |
|--|-----|
| Table 1. Gila National Forest inventoried roadless areas .....   | 209 |
| Table 2. Areas recommended to Congress for wilderness designation as part of the Gila forest plan revision process.....                      | 226 |
| Table 3. Updated plan revision study identified eligible Wild and Scenic Rivers on the Gila NF with classifications and segment lengths..... | 234 |
| Table 4. Timber production suitability classifications for the Gila National Forest.....   | 246 |
| Table 5. Summary of estimated forest-wide vegetation management practices (in acres) for the Gila NF, annual average per decade.....         | 248 |
| Table 6. Sustained yield limit, projected timber sale quantity and projected wood sale quantity for the Gila NF .....                        | 249 |
| Table 7. Minimum required monitoring .....   | 255 |

Table 8. Relationships and collaboration (potential additional monitoring as capacity allows) .....262

Table 9. Social, cultural and economic sustainability (potential additional monitoring as capacity allows)  
.....265

Table 10. Ecological sustainability (potential additional monitoring as capacity allows).....267

**List of Figures**

Figure 1. Location of the Gila National Forest .....3

Figure 2. Relative climate change vulnerabilities across the Gila National Forest .....18

Figure 3. Spatial scales for forest, woodland, shrubland, and grassland ERUs.....26

Figure 4. Watershed and fine-scale units.....27

Figure 5. Wildland-urban interface areas in southwestern New Mexico .....225

Figure 6. Map of suitable timber base .....247

Figure 7. Designated wilderness and inventoried roadless areas, Gila National Forest.....289

Figure 8. Wilderness study areas, Gila National Forest .....290

Figure 9. Recommended wilderness, Gila National Forest .....291

Figure 10. Designated and proposed research natural areas, Gila National Forest .....292

Figure 11. Continental Divide National Scenic Trail and national recreation trails, Gila National Forest 293

Figure 12. National scenic byways, Gila National Forest and vicinity .....294
