In Case of Emergency, Dial 911

Motorized travel on National Forest System lands is restricted to designated roads and trails. Driving or riding off designated roads and trails is prohibited. The legal document that identifies those roads and trails that are designated for motor vehicle use is the Motor Vehicle Use Map (MVUM). The MVUM is published annually and may establish travel regulations that differ from those in this map. It is the responsibility of the user to acquire the current MVUM. Contact your local Forest Service office for a free MVUM or visit their Forest Service MVUM webpage.
