

Accessible Trails on the Coronado National Forest (updated March 2020)

The following is a list of accessible trails on the Coronado National Forest. These trails vary in length from short overlooks to longer nature trail loops. These trails are suitable for visitors who use wheelchairs or walkers and some of them offer benches or other places to rest. Please keep in mind that some locations are closed in winter and that conditions may vary due to maintenance and weather (especially for unpaved trails); Some visitors may need assistance. For additional information about the trails or to check current conditions, please call the numbers listed below.
