

## Results by AOI: 5

Land Ownership: BLM, Department of Defense, Los Padres NF, private land

Host and Agent	County	2020 # of Trees, rounded to nearest 100 (estimate derived from acreage by % area affected metrics)	Increase or Decrease from 2019?
Oak ( <i>Quercus</i> spp.) Mortality - GSOB	Monterey, San Luis Obispo	<100	Decrease
tanoak ( <i>Notholithocarpus densiflorus</i> ) – Sudden Oak Death ( <i>Phytophthora ramorum</i> )	Monterey, San Luis Obispo	700	Decrease

Low levels of scattered gray pine (*Pinus sabiniana*) mortality was detected in both years. Non-mortality damage is crown dieback in gray pine; dieback and discoloration in tanoak, live oak and other hardwoods; and wildfire affecting all tree species. About 7% of this AOI was later affected by the Dolan Fire after the damage shown on this map was recorded.
