

PURPOSE AND CONTENTS OF THIS MAP

The designations shown on this motor vehicle use map (MUM) were made by the responsible official pursuant to 36 CFR 212.51, are effective as of the date on the front cover of this MUM, and will remain in effect until superseded by next year's MUM.

It is the responsibility of the user to acquire the current MUM. This MUM shows the National Forest System roads, National Forest System trails, and the areas of National Forest System lands in the Deschutes National Forest that are designated for motor vehicle use pursuant to 36 CFR 212.51. This MUM also identifies the vehicle classes allowed on each route and in each area, and any seasonal restrictions that apply to those routes and areas in those areas.

Designation of a road, trail, or area for motor vehicle use by a particular class of vehicle under 36 CFR 212.51 should not be interpreted as encouraging or inviting use or implying that the road, trail, or area is passable, readily maintained, or safe for travel. Motor vehicle designations include parking along designated routes and trails and any seasonal restrictions that apply to those routes and areas in those areas. Designated routes when it is safe to do so and when not causing damage to National Forest System resources. Seasonal weather conditions and natural events may render designated routes and trails impassable or unsafe for travel. Designated areas may contain dangerous or impassable terrain. Many designated roads and trails may be passable only by high-clearance vehicles or four-wheel drive vehicles. Maintenance of designated roads and trails will depend on available resources, and many may require little maintenance.

This motor vehicle use map identifies those roads, trails, and areas designated for motor vehicle use under 36 CFR 212.51 for the purpose of enforcing the prohibition at 36 CFR 261.13. This is a limited purpose. The map is not shown for information and navigation purposes only and are not subject to designation under the Forest Service's management regulation.

These designations apply only to National Forest System roads, National Forest System trails, and areas on National Forest System lands.

PROHIBITIONS
It is prohibited to pass or operate a motor vehicle on National Forest System lands on the Deschutes National Forest that is in accordance with these designations under 36 CFR 261.13.

Violators of 36 CFR 261.13 are subject to a fine of up to \$5,000, imprisonment for up to 6 months, or both (18 U.S.C. 3571(e)). This prohibition applies regardless of the presence or absence of signs.
This map does not display nonmotorized uses, over-snow uses, or other facilities and attractions on the Deschutes National Forest. Obtain Forest visitor information from the local National Forest office.
Designated roads, trails and areas may also be subject to temporary emergency closures. As a visitor, you must comply with signs notifying you of such restrictions. A National Forest may issue an order to close a road, trail or area on a temporary basis to protect the life, health, or safety of forest visitors or the natural or cultural resources in these areas. Such a temporary and/or emergency closure is consistent with the Travel Management Rule (36 CFR 212.52 (b), 36 CFR 261 subpart B).

The designation "road or trail open to all motor vehicles" does not supersede State law.

OPERATOR RESPONSIBILITIES

Operating a motor vehicle on National Forest System roads, National Forest System trails, and in areas on National Forest System lands carries a greater responsibility than operating that vehicle in a city or other developed setting. Not only must you know and follow all applicable traffic laws, you need to show concern for the environment as well as other forest users. The misuse of motor vehicles can lead to the temporary or permanent closure of any designated road, trail, or area. As a motor vehicle operator, you are also subject to State traffic law, including State requirements for licensing, registration, and operation of the vehicle in question.
Motor vehicle use, especially off-highway vehicle use, involves inherent risks that may result in personal injury, property damage, and possibly death to participants. Drive cautiously and anticipate rough terrain and features such as snow, mud, vegetation, and water crossings in order to remain driving conditions. By your participation, you voluntarily assume full responsibility for these risks, and you accept the consequences of your actions. Medical assistance may not be readily available. Cellular telephones do not work in many areas of the Deschutes National Forest. Take adequate food, water, fuel and supplies, and other equipment appropriate to the conditions and expected weather.

ALWAYS REMEMBER TO RESPECT PRIVATE LAND!
PROTECT YOUR PRIVILEGE. STAY ON DESIGNATED ROADS AND TRAILS AND IN DESIGNATED AREAS.
Read and understand this map in its entirety. If you have questions, please contact the Deschutes National Forest Supervisor's Office for clarification.
As a motor vehicle operator on a National Forest System road, trail, or area you must comply with this map, as well as all Federal, State, and local laws and regulations. Compliance with these rules is your responsibility.

National Forest District Route Marker
Distinctive and Horizontal Route Markers
Distinctive route markers typically consist of two digits and they identify significant, highly traveled roads through the forest passable by passenger cars during the normal season of use. These are all considered higher level roads.
Horizontal route markers typically consist of four digits with the first two digits identifying the distinctive route that is traversed off of. They identify all other forest roads passable by standard passenger cars during the normal season of use. These are all considered higher level roads.

Vertical Route Markers
Vertical route markers identify roads that are not maintained for travel in standard passenger cars. These markers typically identify the highest level road they cross off of with the highest level road number displayed temporarily above the vertical route marker.
