## Minimization Screening Questions, Data Sources, and Mitigation Actions / Project Design Features

The table below indicates the resource, relevant regulatory citation in the Code of Federal Regulations, the screening question used to identify the interaction between the resource and a trail or area, the GIS screening data used to conduct the analysis, and the mitigation actions and project design features (PDFs) developed by resource specialists to address resource concerns that arise due to potential interaction. For existing routes (e.g., current NFSTs, NFSRs converted to NFSTs), application of mitigation actions and PDFs will be applied at the line officer discretion based on observed impacts. For new routes (NFSTs proposed to be added to the system under an action alternative), mitigation actions and PDFs will be assessed and applied during the project implementation phase.

Table 1: Screening of Resource Areas Consistent with the Minimization Criteria Requirements, Including Proposed Mitigation Actions

Resource	Regulatory Citation	Screening Questions	Screening Data	Mitigation Actions and Project Design Features
Soils	36 C.F.R. § 212.55(b)(1)	Does a trail intersect with areas of rated soil erosion hazards?	Erosion Hazard Rating Data	<ul style="list-style-type: none"> <li>Apply Watershed Conservation Handbook Practices for standard construction mitigations (FSM 2509.25)</li> <li>Alter maintenance level</li> <li>Realign trail as appropriate to avoid problem sections</li> <li>Apply seasonal restriction</li> <li>Alter public access level</li> <li>Close all access to trail</li> </ul>
Soils	36 C.F.R. § 212.55(b)(1)	Do over snow trails or over-snow motorized use areas occur in areas with known sensitive soils?	Site Degradation Susceptibility Data	<ul style="list-style-type: none"> <li>Line Officer discretion to apply a closure via special order for areas with highly susceptible, potentially exposed, and or soils damaged by over snow use when snow conditions require.</li> <li>Conduct site monitoring, particularly during shoulder seasons, to determine if unacceptable levels of soil damage are occurring and if it is attributable to over snow vehicle use.</li> <li>Use trail or location markers to route users away from susceptible areas</li> </ul>

Water	36 C.F.R. § 212.55(b)(1)	Do new summer motorized trails increase the total route density (roads & trails) to 2.4 mi/mi <sup>2</sup> or greater?	12-digit HUC Areas & Trail Distance Metrics	<p>Apply practices from the Watershed Conservation Practices Handbook (FSM 2509.25) and Forest Service BMPs.</p> <p>Favor trail locations, designs, and reconstruction methods that minimize risk to water resources and floodplain function.</p> <p>Conduct maintenance and apply seasonal restrictions necessary to protect the integrity of the route prism and constructed features which minimize erosion and connectivity (e.g., sediment delivery) to water resources.</p> <p>Apply implementation and effectiveness monitoring of BMPs and adapt management and maintenance as necessary to protect water resources.</p> <p>Where connectivity to water resources cannot be adequately minimized, remove the trail from the system.</p>
Water	36 C.F.R. § 212.55(b)(1)	Does a trail, snowmobile route, or over-snow motorized use area either intersect or occur within 300 feet of a perennial or intermittent water resource (i.e., stream, wetland, pond, lake, spring)?	Stream, Waterbody, Wetland, and Spring Data	<p>Apply practices from the Watershed Conservation Practices Handbook (FSM 2509.25) and Forest Service BMPs.</p> <p>Realign or reroute to avoid or buffer sensitive areas. Favor trail locations outside of this zone. If other alternatives are not attainable, apply practices that minimize effects to water resources.</p> <p>Conduct maintenance and apply seasonal restrictions necessary to protect the integrity of the route prism and constructed features which minimize erosion and connectivity (e.g., sediment delivery) to water resources.</p> <p>Construct puncheons, bridges, low water crossings, culverts, or other spanning/crossing features with consideration for appropriate design flows and water resource protection measures.</p> <p>Trail and over-snow motorized uses that have the potential to result in ground disturbance, degrade water quality or water resources, or are outside the Handbook (2509.25) or BMP criteria intended for water resource protection will be limited through special use orders or other resource protection measures.</p> <p>Apply implementation and effectiveness monitoring of BMPs and adapt management and maintenance as necessary to protect water resources.</p> <p>Remove the trail from the system or limit over-snow use trails/areas if resource protection is not attainable.</p>

Water	36 C.F.R. § 212.55(b)(1)	Is the trail, snowmobile route, or over-snow motorized use area within a municipal water supply watershed or within 300 feet of an area with water quality concerns (e.g., 303(d) listed) or protections (e.g., Class 1 waters)?	Municipal Watershed Data; Brooks Lake Area, and Clark's Fork of the Yellowstone River	<p>Apply practices from the Watershed Conservation Practices Handbook (FSM 2509.25) and Forest Service BMPs.</p> <p>Trails in these areas shall be reconstructed, realigned, maintained, and managed to a standard that protects the integrity of the water resources described and include an emphasis on maintaining or improving water quality.</p> <p>Trail and over-snow motorized uses that have the potential to result in ground disturbance, degrade water quality or water resources, or are outside the Handbook (2509.25) or BMP criteria intended for water resource protection will be limited through special use orders or other resource protection measures.</p>
Botany	36 C.F.R. § 212.55(b)(1)	Does a trail intersect a known population of a rare or sensitive plant species population?	Trail locations and sensitive plant data	<p>Realign trail outside of population boundaries</p> <p>Close access to trail if the continued presence will jeopardize viability of the species in the planning area</p>
Botany	36 C.F.R. § 212.55(b)(1)	Does an over-snow motorized use area occur over exposed or sensitive and rare plants?	Use areas, species occurrence locations	<p>Conduct site monitoring during critical seasons to determine adequacy of snow cover</p> <p>Apply a seasonal restriction on areas that show evidence of impacts from over snow motorized use</p> <p>If over-snow use is found to be jeopardizing viability of a species, close the area to that use through use of closures via special orders</p>
Wildlife	36 C.F.R. § 212.55(b)(2)	Does the over-snow motorized use area or snowmobile route occur within ½ mile of a den or nest site for select threatened, endangered, proposed for listing, or sensitive species (grizzly bear, lynx, wolverine, bald eagle, peregrine falcon, northern goshawk, trumpeter swan).	Grizzly Bear Denning Areas, Lynx Habitat	<p>Apply area closures</p> <p>Apply seasonal restrictions</p> <p>Re-align trails to avoid consistently used den or nest sites.</p> <p>Implement voluntary avoidance measures (i.e., signing).</p> <p>Monitor outcome to inform future management.</p>
Wildlife	36 C.F.R. § 212.55(b)(2)	Does a snowmobile route intersect crucial winter range for elk, mule deer, moose, or bighorn sheep?	Crucial Winter Range Data	<p>Implement measures such as signing, education</p> <p>Enforcement actions to prevent off-trail use in crucial winter range areas that are closed to over-snow motorized use.</p>
Wildlife	36 C.F.R. § 212.55(b)(2)	Does a motorized trail intersect elk, mule deer, moose or bighorn sheep parturition range?	Parturition Range Data	Apply seasonal restrictions

RNAs and SIAs	36 C.F.R. § 212.55(b)(3)	Does a trail or over snow use area interact with a special area?	RNA and SIA boundaries, trail locations, use area boundaries	<p>Conduct site monitoring during critical seasons to determine adequacy of snow cover and any evidence of damage</p> <p>Realign trail outside or along boundary of RNA/SIA</p> <p>Apply a seasonal restriction on areas that show evidence of impacts from over snow motorized use</p> <p>Restrict season of trail use to avoid sensitive conditions</p> <p>If damage is occurring from a documented source, remove that use through special order</p>
Recreation	36 C.F.R. § 212.55(b)(3)	<p>Does the trail intersect with a Forest Service designated area? Sub-queries include:</p> <p>Does the trail intersect with a Roadless Area?</p> <p>Is the trail within ½ mile of a Roadless Areas?</p> <p>Does the trail intersect with the CDNST and NPNHT (including a ½ mile buffer around the CDNST and NPNHT)?</p> <p>Is the trail within ½ mile of the Clarks Fork Wild and Scenic River?</p> <p>Is the trail within ½ mile of designated wilderness?</p>	Motorized trail data, land designation data and information	<p>Provide signs to identify allowed uses on designated routes</p> <p>Continue to coordinate with Wyoming State Trails program to provide for paper and georeferenced electronic maps to be available to the public.</p> <p>Vary trail widths to accommodate specific users</p> <p>Provide separate trailheads for different uses</p> <p>Create trail advisory councils</p> <p>Use obstacles to narrow routes and limit vehicle type</p> <p>Education programs such as Stay the Trail</p> <p>Adopt a trail</p> <p>Volunteer trail patrols</p> <p>Monitor trail usage</p>
Recreation	36 C.F.R. § 212.55(b)(4)	Is the trail open to all vehicles? Captures potential motorized user conflict with different size vehicles operating on the same route; these conflicts are less likely to occur on trails open to 50-inch wide vehicles or smaller.	Motorized trail designation	<p>Provide signs to identify allowed uses on designated routes</p> <p>Continue to coordinate with Wyoming State Trails program to provide for paper and georeferenced electronic maps to be available to the public.</p> <p>Vary trail widths to accommodate specific users</p> <p>Provide separate trailheads for different uses</p> <p>Create trail advisory councils</p> <p>Use obstacles to narrow routes and limit vehicle type</p> <p>Education programs such as Stay the Trail</p> <p>Adopt a trail</p> <p>Volunteer trail patrols</p> <p>Provide adequate trail opportunities</p> <p>Encourage use of less popular access points</p> <p>Monitor trail usage</p>

Recreation	36 C.F.R. § 212.55(b)(5)	Is the trail within ½ mile from neighboring agency, state, and private lands, and populated areas (Recreation Residences)?	Motorized trail data, land ownership data	<p>Enforce state sound and emissions restrictions</p> <p>Apply time of day restrictions (such as evening or early morning closures)</p> <p>Apply vegetation buffers</p> <p>Provide signs to identify allowed uses on designated routes</p> <p>Continue to coordinate with Wyoming State Trails program to provide for paper and georeferenced electronic maps to be available to the public.</p> <p>Vary trail widths to accommodate specific users</p> <p>Provide separate trailheads for different uses</p> <p>Create trail advisory councils</p> <p>Use obstacles to narrow routes and limit vehicle type</p> <p>Education programs such as Stay the Trail</p> <p>Adopt a trail</p> <p>Volunteer trail patrols</p> <p>Provide adequate trail opportunities</p> <p>Encourage use of less popular access points</p> <p>Monitor trail usage</p>
Recreation	36 C.F.R. § 212.55(b)(3)	<p>Does an OSV trail/area intersect with a Forest Service designated area? Sub-queries include:</p> <p>Does an OSV trail/area intersect with a Roadless Area?</p> <p>Is an OSV trail/area within ½ mile of a Roadless Areas?</p> <p>Does an OSV trail/area intersect with the CDNST and NPNHT (including a ½ mile buffer around the CDNST and NPNHT)?</p> <p>Is an OSV trail/area within ½ mile of the Clarks Fork Wild and Scenic River?</p> <p>Is an OSV trail/area within ½ mile of designated wilderness?</p>	OSV trail/area data, land designation data and information	<p>Post Wilderness boundaries adjacent to areas designated for OSV use</p> <p>Provide signs to identify allowed uses on designated winter routes and OSV areas</p> <p>Provide maps and electronic information that clearly identify areas designated and not designated for OSV use and the location of non-motorized areas including the Wilderness Areas, cross-country ski areas, and Management Areas closed to OSV use</p> <p>Coordinate with the Wyoming State Trails program in providing OSV maps</p> <p>Education programs instilling user ethics and appropriate use behavior</p> <p>Volunteer OSV patrols</p> <p>Monitor trail usage</p>

P	36 C.F.R. § 212.55(b)(4)	Does the OSV trail allow travel by tracked ATV? Provides a mechanism to evaluate potential conflict between different types of OSV.	OSV trail data	<p>Class 2 OSVs would be allowed to operate on designated groomed trails only. Class 2 OSVs would not be allowed to operate cross-country or on ungroomed trails.</p> <p>Cross-country over-snow travel by wheeled vehicles is prohibited under current wheeled motorized vehicle use regulations. None of the alternatives would amend or rescind the existing prohibition on operating wheeled vehicles cross country.</p> <p>Provide maps and electronic information that clearly identify winter trails open to tracked OSV. Coordinate with the Wyoming State Trails program in providing OSV maps</p> <p>Provide accurate maps, signage and electronic information to educate the public on OSV-use restrictions and responsible practices and use restrictions for Class 2 OSVs</p> <p>Install proper signage on multi-use and non-motorized trails, and provide (georeferenced) electronic information and paper maps that clearly display and explain trail restrictions</p> <p>Coordinate with the Wyoming State Trails program in providing OSV paper and georeferenced maps</p>
Recreation (Subpart C)	36 C.F.R. § 212.55(b)(5)	Is an OSV trail/area within ½ mile of neighboring agency, state, and private lands, and populated areas (Recreation Residences)?	OSV trail/area data, land ownership data	<p>Provide maps and electronic information that clearly identify areas designated and not designated for OSV use and the location of non-motorized areas including the Wilderness Areas, cross-country ski areas, and other areas (Management Areas) closed to OSV use</p> <p>Provide accurate maps, signage and electronic information to educate the public on OSV-use restrictions and responsible practices</p> <p>Install proper signage on multi-use and non-motorized trails, and provide (georeferenced) electronic information and paper maps that clearly display and explain trail restrictions</p> <p>Coordinate with the Wyoming State Trails program in providing OSV paper and georeferenced maps</p> <p>Enforce state sound and emissions restrictions</p> <p>Consider separate trailheads for different uses</p> <p>Create trail advisory councils</p> <p>Monitor trail usage</p> <p>Education programs to instill ethics and appropriate use behavior</p> <p>Volunteer OSV patrols</p>

# Minimization Criteria Applied to Proposed Motorized Trails & Areas Under Alternatives 4

The tables below list the results of screening questions applied to proposed motorized trails under Alternative 4 (for information regarding the screening of Alternatives 2 and 3, consult Appendix C for the Preliminary EA available online at <https://www.fs.usda.gov/detail/shoshone/home/?cid=stelprd3846526>). These questions correspond to the Minimization Criteria requirements of 36 C.F.R. §§ 212.55(b), 212.81(d)) and are described in more detail in the Environmental Assessment, including in the discussion of processes in Chapter 2 and in the specific resource analyses. The tables list the screened trails for year-round motorized use and the screened trails and areas for over-snow motorized use under both action alternatives. Trails with affirmative responses will necessitate application of suitable mitigation measures and project design features, as identified in the Environmental Assessment.

Additionally, resources were screened consistent with 36 C.F.R. §§ 212.55(b)(1), (2) similar to the screening applied to the trails and areas open to vehicle use under Alternative 2 and 3. To ensure adequate comparison across the alternatives, the Forest Service re-evaluated Alternatives 2 and 3, along with Alternative 4, to consider the interactions of motorized use along these routes with the resources identified under 36 C.F.R. §§ 212.55(b)(3) through (5). These tables are effectively broken into a review of natural resource interactions with motorized use and socio-economic interactions with motorized use. The tables depicting the former interaction appear first, followed by the tables for the latter interaction under all action alternatives.

## Alternative 4 – Natural Resource Screening

Table 2: Screening Inquiry for Minimization Criteria Requirement Applied to Designated Motorized Trails Proposed under Alternative 4, *Natural Resource Focus*

Proposal # (If Applicable)	General Location (Where Applicable)	Ranger District	Segment ID	Segment Mileage	Route Type	Seasonal Closure (Yes/No)	Open Route Dates	Do NFSTs increase the total route density (roads & trails) to 2.4 mi/mi <sup>2</sup> or greater? Table 4: Screening Inquiry for Minimization Criteria Requirement Applied to Areas Open to Over-Snow Motorized Use Proposed under Alternative 4

OSV Area	Ranger District	Acres	Is the OSV trail within a municipal water supply watershed?	Does the OSV trail drain into a 303(d) listed waterbody?	Does the OSV trail drain into a Class 1 stream?	Does the OSV trail either intersect or occur within 300 feet of a stream?	Does the OSV trail either intersect or occur within 300 feet of a water body?	Does the OSV trail either intersect or occur within 300 feet of a spring?	Does the OSV trail interact with a special area that will modify the integrity of ecological processes in that area?	Do over snow trails or over-snow motorized use areas occur in areas with known sensitive soils? (Using Site Degradation Susceptibility Data; yes returned for Moderate or High)	Does the OSV trail intersect crucial winter range for elk, mule deer, moose, or bighorn sheep?	Does the OSV trail intersect elk, mule deer, moose or bighorn sheep parturition range?	Does the OSV trail occur within 1/2 mile of a den site for grizzly bear?	Does the OSV trail route occur within 1/2 mile of a den site for wolverine?	Does the OSV trail route overlap with mapped lynx habitat?	Does the OSV trail intersect a known population of a rare or sensitive plant species population that could jeopardize viability within the Forest boundary?

## Alternative 2 – Socio-Economic Screening

Table 5: Alternative 2 Screening of Socio-Economic Interactions with Wheeled Vehicle Trails

Proposal Number	Location	Office	Ranger District	Segment	Miles	Route Type	Seasonal Closure (Yes/No)	Route Open Dates	Does the trail intersect with a Roadless Area?	Is the trail within 1/2 mile of a Roadless Area?	Does the trail intersect with the CDNST (including a 1/2 mile buffer around the CDNST)?	Does the trail intersect with the NPNHT (including a 1/2 mile buffer around the NPNHT)?	Is the trail open to all vehicles? Captures potential motorized user conflict with different size vehicles operating on the same route; these conflicts are less likely to occur on trails open to 50-inch-wide-vehicles-or-less.	Is the trail within 1/2 mile of the Clarks Fork Wild and Scenic River?	Is the trail within 1/2 mile of designated wilderness?	Is the trail within 1/2 mile from neighboring agency, state, and private lands, and populated areas (Recreation Residences)?
