The designations shown on this motor vehicle use map are effective as of the date on the front cover and will remain in effect until superseded by the next year's motor vehicle use map. It is the responsibility of the user to acquire the current MVUM. This map shows the National Forest System roads, National Forest System trails, and the areas on National Forest System lands in the Custer Gallatin National Forest that are designated for motor vehicle use pursuant to 36 Code of Federal Regulations (CFR) 212.51. Motor vehicle designations nclude parking along designated routes and at facilities associated with designated routes when it is safe to do so and when not causing damage to National Forest System resources. Seasonal weather conditions and natural events may render designated routes and trails impassable for extended periods. Designated areas may contain dangerous or impassable terrain. Many designated roads and trails may be passable only by high-clearance vehicles or four-wheel-drive vehicles. Maintenance of designated roads and trails will depend on available

This motor vehicle use map identifies those roads, trails, and areas designated for the motor vehicle use under 36 CFR 212.51 for the purpose of enforcing the prohibition at 36 CFR 261.13. This is a limited purpose. The other public roads are shown for information and navigation purposes only and are not subject to designation under the Forest Service travel management regulation.
