

TRAILS  
SALOME WILDERNESS

There is a network of “system” trails serving the Salome Wilderness Area and contiguous areas. Their condition varies from satisfactory to very poor. All trails are closed to motor vehicles and mechanical transport such as bikes.

Use a great deal of caution when traveling on backcountry trails such as this one and be aware of the risks you assume.

A few brief comments are in order about the following trail:

**Boyer Trail 148**: 5.0 miles in length. The trail follows Boyer Creek, steadily climbing through chaparral and semi-desert grassland. It tops out, which follows the bluffs above Salome creek, eventually meeting with Hell’s Hole Trail 284. It may be overgrown and difficult to follow in some places. Elevation: 4080 - 5600 feet. Difficulty level: More difficult. Use level: Light. Trailhead: **Boyer TH**.

Use of any mechanized or motorized is prohibited on this trail. No more than 15 people are allowed to be in a group. No more than 15 head of livestock are allowed in a group.
