

Santa Clara Mojave Rivers Ranger District Campgrounds

Most campgrounds on the Angeles National Forest are first come, first served. However, some are managed by concessionaires who do take reservations. The National Forest Adventure Pass or the Interagency Pass is not required if you visit a fee campground and remain in that area; it is required if you leave that campground and recreate elsewhere on the forest.

Campfire permits are not required at campgrounds where you have paid a fee, but trail camps and dispersed camping does require a current California Campfire Permit for your portable stove use. Each campsite is for a maximum of 8 people; there may be an extra charge for additional vehicles. Fire restrictions are subject to change during the year, contact our General Forest Information line at (626) 574-5200 or go to our website at www.fs.fed.us/r5/angeles for the latest updates.

You may camp 14 days at any one site on the district or 30 days in the forest.

Special Notes: Contact the Santa Clara/Mojave Rivers Ranger District Office for current updates on the campground you wish to visit. Please help protect the forest by checking with your local Forest Service Office for current fire restrictions. Stream and lake water on the forest is not recommended for drinking. However, if you find it necessary, boil all stream or lake water for at least five (5) minutes. Portable filtration units (0.2 microns) may be used.

ALWAYS bring your own drinking water, even to the campgrounds that state they provide piped water. There is no guarantee that water will be available at the campgrounds. Severe drought or extreme low water levels may cause the water systems to cease working.
