

AMERICA'S **BIG 6** of WILDLIFE CONSERVATION

N A T I O N A L W I L D T U R K E Y F E D E R A T I O N

The outdoors isn't just what's on the other side of the glass, it's where we feel most alive. We are the National Wild Turkey Federation – the leader in upland conservation – and we're committed to making America the best it can be for the people and wildlife who call its forests, grasslands and riverbanks home.

We've divided the country in six areas, focusing our efforts to keep forests healthy, water clean and stop critical habitat loss. Our volunteers are unmatched in their devotion to wildlife and wild places. Our expert staff has proven it can lead the way in effective conservation delivery. Our partners offer a network of support that enables us to achieve success.

Join us as we tackle what matters most to hunters, to wildlife, to America. Learn more at www.nwtf.org.

SAVE THE
HABITAT.
SAVE THE
HUNT.

Save the Habitat. Save the Hunt. is a 10-year initiative to conserve or enhance 4 million acres of critical upland habitat, create 1.5 million hunters and open access to 500,000 additional acres for hunting. America's Big Six of Wildlife Conservation allow us to focus our effort on the most critical upland habitat needs.

AMERICA'S WESTERN WILDERNESS

- Improve forest health
- Improve water quality
- Restore native prairies

AMERICA'S GREAT OPEN SPACES

- Improve forest health
- Improve water quality
- Restore native prairies

AMERICA'S CROSSROADS

- Improve water quality
- Improve forest health
- Restore grasslands

AMERICA'S COLONIAL FORESTS

- Maintain healthy hardwood forests
- Stop habitat loss
- Increase winter wildlife survival
- Increase habitat diversity

AMERICA'S SOUTHERN PINEY WOODS

- Stop habitat loss
- Improve forest management
- Increase habitat diversity

AMERICA'S MID-SOUTH REBIRTH

- Improve water quality
- Stop habitat loss
- Maintain healthy hardwood forests
