

## APPENDIX B: Relevant FEIS species reviews

FEIS contains the following reviews of plant species dominant in LANDFIRE Biophysical Settings Models mentioned in this review.

Common name	Scientific name
<b>Bryophytes</b>	
splendid feather moss	<a href="#"><i>Hylocomium splendens</i></a>
Schreber's moss	<a href="#"><i>Pleurozium schreberi</i></a>
<b>Ferns</b>	
ladyfern	<a href="#"><i>Athyrium filix-femina</i></a>
<b>Forbs</b>	
western yarrow	<a href="#"><i>Achillea millefolium</i></a>
fireweed	<a href="#"><i>Chamerion angustifolium</i></a>
<b>Graminoids</b>	
polargrass	<a href="#"><i>Arctagrostis latifolia</i></a>
bluejoint reedgrass	<a href="#"><i>Calamagrostis canadensis</i></a>
leafy tussock sedge	<a href="#"><i>Carex aquatilis</i></a>
Bigelow sedge	<a href="#"><i>Carex bigelowii</i></a>
sheathed cottonsedge	<a href="#"><i>Eriophorum vaginatum</i></a>
<b>Lichens</b>	
reindeer lichen	<a href="#"><i>Cladina</i> spp.</a>
star reindeer lichen	<a href="#"><i>Cladina stellaris</i></a>
<b>Shrubs</b>	
red fruit bearberry	<a href="#"><i>Arctostaphylos rubra</i></a>
boreal sagebrush	<a href="#"><i>Artemisia norvegica</i></a>
dwarf birch	<a href="#"><i>Betula nana</i></a>
leatherleaf	<a href="#"><i>Chamaedaphne calyculata</i></a>
black crowberry	<a href="#"><i>Empetrum nigrum</i></a>
northern Labrador tea	<a href="#"><i>Ledum palustre</i></a>
diamondleaf willow	<a href="#"><i>Salix pulchra</i></a>
Richardson willow	<a href="#"><i>Salix richardsonii</i></a>
evergreen huckleberry	<a href="#"><i>Vaccinium ovalifolium</i></a>
bog cranberry	<a href="#"><i>Vaccinium oxycoccos</i></a>
bog blueberry	<a href="#"><i>Vaccinium uliginosum</i></a>
mountain cranberry	<a href="#"><i>Vaccinium vitis-idaea</i></a>
