O
Boundaries

July 21, 1911.

The following is a complete tabulated list of changes in National Forest Boundaries made after the issuance of the January Field Program and up to and including July 15. These changes were not published in the July Field Program as usual because of the desire to limit the size of that publication. They are being sent out in mimeograph form for the information of Forest Officers. All areas are approximate and subject to change. The new Forests created either by the transfer of other National Forest lands or by additions from the public lands are written in capital letters.
