Update of Appendix C, Summer and Winter Access
August 1997

Final Environmental Impact Statement for the
Forest Plan Revision

Targhee National Forest

The District tables contained in Appendix C of the Final Environmental Impact Statement for the Forest Plan Revision have been updated as shown on the attached sheets.

Deletions are shown as strike-overs. Changes and additions are shown in bold. Most of the changes are the result of relabelling roads and trails to correspond with current designations. A large number of duplicate entries have been eliminated.

OPEN ROAD AND OPEN MOTORIZED TRAIL ROUTE (OROMTRD) DECISION CRITERIA TABLES

DEFINITIONS

Following are the definitions of the criteria used on the OROMTR Decision Criteria Tables:

- A. Core Access: Needed to access private property, adjoining State and Federal Parks or State Lands, and roads that access administrative sites, campgrounds and picnic areas, electronic sites, permitted communications sites, ski areas, boat ramps and special recreation sites such as Mesa Falls and Big Springs.
- B. First Priority: In some areas the application of management prescriptions and density standards resulted in this type of road/trail being the only facility designated "open" in the area.
- C. Eastside Ecosystem Management Project (EEMP) Guidelines: EEMP guidelines used to establish a rule set to insure consistency as each District prepared their access maps.
- D. Coordinated Access: Roads/trails that provide inter-District access.
- E. Maintenance of Wildlife Habitat: Road/trail selected causes less impact.
- F. Resource Damage: Road/trail selected caused less impact.
- G. Cost: Lower cost to maintain road/trail.
- H. District-specific criteria (if any).
- I. District-specific criteria (if any).
