\*CHANGES IN THIS REVISED MAP  
This GIS layer, called alt7r trav05, incorporates changes as a result of the Caribou Revised Travel Plan ROD and Forest Plan Amendments 1, 2 and 3. The net effects are:

1. Slight changes to some Rx boundaries due to realignment of roads and trails over DOQs.
2. OMRD values are current per new Travel Plan.  
Forest Plan Amendment 1. (See Map 9 for OMRD values)
3. No more cross country travel (previously allowed in Huckleberry area).  
Forest Plan Amendment 2.
4. New boundary for non-motorized polygon east of Pebble Cr Ski Area.  
Forest Plan Amendment 3.
5. Additional corrections applied on this GIS layer changed the mining disturbance polygons on the Elkhorn portion of Westside RD from 6.2.2 (phosphate mines) to 6.2 (Rangeland Mgt). These are perite mines that were incorrectly coded as phosphate mines on the original Alt 7R maps.
