## My Nature Notes

**DIRECTIONS:** Find a place to sit quietly outside. Use your senses to explore your special place and record your experiences below. Write or draw.

| and sie        |                           | the state of the second |  |
|----------------|---------------------------|-------------------------|--|
| Date:          | Time:                     | _                       |  |
| Clouds:        | Wind:                     | Temperature:            |  |
|                |                           |                         |  |
| What do you se | ee, smell, feel, or hear? |                         |  |
|                |                           |                         |  |
|                |                           |                         |  |
|                |                           | place                   | ous! Try this activity<br>in in a different<br>e. What is different?<br>t is the same? |
