- Pack garbage and food scraps out with you.
- Follow the terms and conditions on your permit.

Mushrooms (Excluding Matsutake Mushrooms)

Personal Use

If collecting one gallon or less per day of any kind of mushroom except matsutake, no permit is required.

Commercial Use

Commercial permits are available throughout the year and are required when more than one gallon of mushrooms are harvested per day. Quantities of mushrooms are unlimited (except for matsutake mushrooms, which fall under a separate permit). Each mushroom picker must have a valid permit and be age 18 or older.

Only certain edible mushrooms are permitted, such as Chanterelles, Boletus, Oyster, Sulfur Shelf Fungus, Slipper Jack, Imperial, Hedgehog, Shaggy Mane, Lobster, Cauliflower, Pigs Ear, and Coral Fungus.

Matsutake Mushrooms

Personal Use

Up to 6 matsutake mushrooms can be collected per day without a permit. All matsutake mushrooms collected for personal use must be cut in half lengthwise immediately after picking to remove their commercial value.

Commercial Use

Under a commercial use permit, quantities of matsutake mushrooms are unlimited. Anyone gathering matsutake mushrooms to sell must carry a commercial-use permit while picking. Each picker must have a valid permit and be age 18 or older. Matsutake permits are valid from the date of sale through Dec. 31 each year.

Annual permits for matsutake mushrooms go on sale in September. One permit per person. Permits will be sold on a first come, first served basis.
