

FINAL AGENDA – SA-RAC – 6/17/2024

Guidelines:

- Please review the ratings for members of your group before this meeting and determine if any of their ratings or comments result in you deciding to reconsider your rating for a project(s).
- Teams Meeting – Everyone will need a reliable internet connection.
- A device with a camera is preferred.
- Please dedicate the day to our meeting by turning off cell phones and minimizing distractions.
- Please return from breaks on time.
- Please be prepared to stay online until we are finished. As a committee we agreed to try to meet only one day and go as long as it takes.

This is the ‘values’ statement the SA-RAC agreed to use as a guideline to rank projects:

It is important to the SA-RAC to solicit a diversity of projects that support local communities and their ties to US Forest Service lands and that we work together to promote: community engagement, partnerships, collaboration, and local leadership; to improve the sustainability of local economies, ecological services and stewardship opportunities on public lands.
