Don't Let Your Legacy Go Up In Flames!

America's forests and rangelands are suffering a crisis of deteriorating ecological health. This has left forests vulnerable to disease, drought, and extraordinarily destructive wildfires.

The U.S. Departments of Agriculture and the Interior are reducing the accumulation of combustible forest material and restoring wildfire-damaged areas to a healthier state.

For more information on how you can support healthy forests, visit http://www.whitehouse.gov/infocus/healthyforests/toc.html

Support Healthy Forests

On average for the past 3 years, more than 6.3 million acres of land have burned causing devasting impacts to communities, wildlife habitat, water quality, and our natural resources.
