REGULATORY NOTICES
PEARSON FIELD AIRPORT
SPECIAL RULE AREA F.A.R. PART 93
Special air traffic rules and communications requirements are in effect for persons operating below 1100 feet MSL within the lateral boundary of the Special Flight Rules Area (SFRA) depicted for Pearson Field, Vancouver, WA.
Unless otherwise authorized by ATC, obtain the Pearson Field weather and establish two-way radio communications with Pearson Advisory on the common traffic advisory frequency (CTAF) prior to entering the SFRA, or taxiing onto the runway at Pearson Field Airport.
If two-way radio communications failure occurs in flight, you may operate an aircraft within the SFRA, and land; if weather conditions are at or above basic VFR weather minimums, or if operating under IFR in compliance with § 91.185.
Unless otherwise authorized by ATC, pilots operating aircraft within the SFRA must maintain an altitude at or below 700 feet above mean sea level when operating over the extended centerline of Pearson Field Runway 8/26, remain outside Portland Class C Airspace; and make all right traffic patterns when entering to/from Pearson Field Runway 26.
