

Fire Chemical Intrusion Report

Intrusion Date:

Incident Name:

Intrusion Latitude:

Fire Chemical Category: Agency:

Agency:

Region or Area:

Unit:

Subunit:

Avoidance Area Description:

Waterway? Water present? Yes No

Water way buffer zone?

Aquatic TEPCS habitat?

Terrestrial TEPCS habitat?

Cultural Resource/Sacred Site?

Description of intrusion into avoidance area

Description of Wildland Fuel at site

Open Light Fuels

Brush

Open Timber/Grass

Timber/Brush

Heavy Timber/Closed Canopy

Slash

Observations

Discovery Date:

Incident Number:

[State Abbreviation]-[3 Letter Unit Acronym]-[Six Numbers] (i.e. OR-RLB-000345)

Intrusion Longitude:

Fire Chemical Type:

Delivery Method:

Intrusion Type:

Size of Fire (acres):

Intrusion Application Area

Width in feet

Length in feet

Chemical coverage level:

Gallons per 100 Square Feet

Description of fire chemical coverage at the site:

Number of Drops in avoidance areas:

Approx. Total number of gallons dropped in avoidance area:

Reporting:

Discovered by
