Under Section 304(e) of the Omnibus Park and Public Lands Act of 1996, Public Law 104-333, 110 Stat. 4122, ("The Snowbasin Land Exchange Act"), Congress found that the Phase I facilities referred to in the Snowbasin Ski Area Master Development Plan dated October 1995 that were to be located on National Forest System lands were limited in size and scope, reasonable and necessary to accommodate the 2002 Olympics, and in some cases necessary to provide for safety of competitors and spectators. Congress also provided for modification of such Phase I facilities under certain conditions, subject to its review. Upon completion of Congressional review of the Master Development Plan and any modification, the Act directed the Secretary of Agriculture to authorize construction and operation of any Phase I facilities upon receipt of application by Sun Valley Company, in accordance with applicable policies and reasonable conditions to protect National Forest resources. The Act further provided that the authorization of Phase I facilities by the Secretary in accordance with the Act was nondiscretionary, and therefore deemed to comply with all procedural and other requirements of the laws of the United States and not subject to judicial review.

The Forest Service and Sun Valley agreed to modifications of the Phase I facilities which were documented in the 1997 Addendum to the Master Development Plan that was submitted to Congress in accordance with the Act, and no further direction was received from Congress. The facilities authorized in this Permit include all Phase I facilities identified in the 1995 Master Development Plan, as modified by the 1997 Addendum, that will be authorized prior to the 2002 Winter Olympics under the provisions of the Snowbasin Land Exchange Act. Any future request for Forest Service authorization of facilities not identified in this permit will proceed in accordance with the laws, regulations, and policies pertaining to the National Forest System generally, and such future requests for authorization shall not be subject to the special provisions of the Snowbasin Land Exchange Act.

Attached Clauses. This term permit is accepted subject to the conditions set forth herein on pages 1 through 15 and to exhibits A-1 to A-2 attached or referenced hereto and made a part of this permit.

C. Damage to United States Property. The holder shall exercise diligence in protecting from damage the land and property of the United States covered by and used in connection with this permit. D. Risks. The holder assumes all risk of loss to the improvements resulting from natural or catastrophic events, including but not limited to, avalanches, rising waters, high winds, falling limbs or trees, and other hazardous events. If the improvements authorized by this permit are destroyed or substantially damaged by natural or catastrophic events, the authorized officer shall conduct an analysis to determine whether the improvements can be safely occupied in the future and whether rebuilding should be allowed. The analysis shall be provided to the holder within six (6) months of the event.

VI. FEES

Ski Area Permit Fees. The Forest Service shall adjust and calculate permit fees authorized by this permit to reflect any revisions to permit fee provisions in 16 U.S.C. 497c or to comply with any new permit fee system based on fair market value that may be adopted by statute or otherwise after issuance of this permit.

A. Fee Calculation. The annual fee due the United States for the activities authorized by this permit shall be calculated using the following formula:

- SAPF = (.015 x AGR in bracket 1) + (.025 x AGR in bracket 2) + (.0275 x AGR in bracket 3) + (.04 x AGR in bracket 4)
- Where:
- AGR = [(LT + SS) x (proration %)] + GRAF
- AGR is adjusted gross revenue;
- LT is revenue from sales of alpine and nordic lift tickets and passes;
- GRAF is gross year-round revenue from ancillary facilities;
- Proration % is the factor to apportion revenue attributable to use of National Forest System lands;
- SAPF is the ski area permit fee for use of National Forest System lands; and
- SS is revenue from alpine and nordic ski school operations.

1. SAPF shall be calculated by summing the results of multiplying the indicated percentage rates by the amount of the holder's adjusted gross revenue (AGR), which falls into each of the four brackets. Follow direction in paragraph 2 to determine AGR. The permit fee shall be calculated based on the holder's fiscal year, unless mutually agreed otherwise by the holder and the authorized officer.

The four revenue brackets shall be adjusted annually by the consumer price index issued in FSH 2709.11, chapter 30. The revenue brackets shall be indexed for the previous calendar year. The holder's AGR for any fiscal year shall not be split into more than one set of indexed brackets. Only the levels of AGR defined in each bracket are updated annually. The percentage rates do not change.

The revenue brackets and percentages displayed in Exhibit 01 shall be used as shown in the preceding formula to calculate the permit fee.

and beyond

*The authorized officer shall notify the holder of the updated revenue brackets based on the Consumer Price Index (CPI) which is revised and issued annually in FSH 2709.11, chapter 30.

2. AGR shall be calculated by summing the revenue from lift tickets and ski school operations prorated for use of National Forest System lands and from ancillary facility operations conducted on National Forest System lands.

Revenue inclusions shall be income from sales of alpine and nordic tickets and ski area passes; alpine and nordic ski school operations; gross revenue from ancillary facilities; the value of bartered goods and complimentary lift tickets (such as lift tickets provided free of charge to the holder's friends or relatives); and special event revenue. Discriminatory pricing, a rate based solely on race, color, religion, sex, national origin, age, disability, or place of residence, is not allowed, but if it occurs, include the amount that would have been received had the discriminatory pricing transaction been made at the market price, the price generally available to an informed public, excluding special promotions.

Revenue exclusions shall be income from sales of operating equipment; refunds; rent paid to the holder by sub holders; sponsor contributions to special events; any amount attributable to employee gratuities or employee lift tickets; discounts; ski area tickets or passes provided for a public safety or public service purpose (such as for National Ski Patrol or for volunteers to assist on the slope in the Special Olympics); and other goods or services (except for bartered goods and complimentary lift tickets) for which the holder does not receive money.

Include the following in AGR:

- a. Revenue from sales of year-round alpine and nordic ski area passes and tickets and revenue from alpine and nordic ski school operations prorated according to the percentage of use between National Forest System lands and private land in the ski area;
- b. Gross year-round revenue from temporary and permanent ancillary facilities located on National Forest System lands;
- c. The value of bartered goods and complimentary lift tickets, which are goods, services, or privileges that are not available to the general public (except for employee gratuities, employee lift tickets, and discounts, and except for ski area tickets and passes provided for a public safety or public service purpose) and that are donated or provided without charge in exchange for something of value to organizations or individuals (for example, ski area product discounts, service discounts, or lift tickets that are provided free of charge in exchange for advertising).

Bartered goods and complimentary lift tickets (except for employee gratuities, employee lift tickets, discounts, and except for ski area tickets and passes provided for a public safety or public service purpose) valued at market price shall be included in the AGR formula as revenue under LT, SS, or GRAF, depending on the type of goods, services, or privileges donated or bartered; and

- d. Special event revenue from events, such as food festivals, foot races, and concerts. Special event revenue shall be included in the AGR formula as revenue under LT, SS, or GRAF, as applicable. Prorate revenue according to the percentage of use between National Forest System lands and private land as described in the following paragraphs 5 and 6.

3. LT is the revenue from sales of alpine and nordic lift tickets and passes purchased for the purpose of using a ski area during any time of the year, including revenue that is generated on private land (such as from tickets sold on private land).

4. SS is the revenue from lessons provided to teach alpine or nordic skiing or other winter sports activities, such as racing, snowboarding, or snowshoeing, including revenue that is generated on private land (such as from tickets sold on private land).

5. Proration % is the method used to prorate revenue from the sale of ski area passes and lift tickets and revenue from ski school operations between National Forest System lands and private land in the ski area.

Separately prorate alpine and nordic revenue with an appropriate proration factor. Add prorated revenues together; then sum them with GRAF to arrive at AGR. Use one or both of the following methods, as appropriate:

- a. STFP shall be the method used to prorate alpine revenue. The STFP direction contained in FSM 2715.11c effective in 1992 shall be used. Include in the calculation only uphill devices (lifts, tows, and tramways) that are fundamental to the winter sports operation (usually those located on both Federal and private land). Do not include people movers whose primary purpose is to shuttle people between parking areas or between parking areas and lodges and offices.
- b. Nordic trail length is the method used to prorate nordic revenue. Use the percentage of trail length on National Forest System lands to total trail length.

6. GRAF is the revenue from ancillary facilities, including all of the holder's or subholder's lodging, food service, rental shops, parking, and other ancillary operations located on National Forest System lands. Do not include revenue that is generated on private land. For facilities that are partially located on National Forest System lands, calculate the ratio of the facility square footage located on National Forest System lands to the total facility square footage. Special event revenue allocatable to GRAF shall be prorated by the ratio of use on National Forest System lands to the total use.

7. In cases when the holder has no AGR for a given fiscal year, the holder shall pay a permit fee of \$2 per acre for National Forest System lands under permit or a percentage of the appraised value of National Forest System lands under permit, at the discretion of the authorized officer.

B. Fee Payments. Reports and deposits shall be tendered in accordance with the following schedule. They shall be sent or delivered to the collection officer, USDA, Forest Service, at the address furnished by the authorized officer. Checks or money orders shall be made payable to: USDA, Forest Service.

1. The holder shall calculate and submit an advance payment which is due by the beginning of the holder's payment cycle. The advance payment shall equal 20 percent of the holder's average permit fee for 3 operating years, when available. When past permit fee information is not available, the advance payment shall equal 20 percent of the permit fee, based on the prior holder's average fee or projected AGR. For ski areas not expected to generate AGR for a given payment cycle, advance payment of the permit fee as calculated in item A, paragraph 7 (\$2 per acre for National Forest System lands under permit or a percentage of the appraised value of National Forest System lands under permit, at the discretion of the authorized officer) shall be made. The advance payment shall be credited (item B, paragraph 3) toward the total ski area permit fee for the payment cycle.

2. The holder shall report sales, calculate fees due based on a tentative percentage rate, and make interim payments each calendar month except for periods in which no sales take place and the holder has notified the authorized officer that the operation has entered a seasonal shutdown for a specific period. Reports and payments shall be made by the end of the month following the end of each reportable period. Interim payments shall be credited (item B, paragraph 3) toward the total ski area permit fee for the payment cycle.

3. Within 90 days after the close of the ski area's payment cycle, the holder shall provide a financial statement, including a completed permit fee information form, Form FS-2700-19a, representing the ski area's financial condition at the close of its business year and an annual operating statement reporting the results of operations, including a final payment which includes year-end adjustments for the holder and each subholder for the same period. Any balance that exists may be credited and applied against the next payment due or refunded, at the discretion of the permit holder.

4. Within 30 days of receipt of a statement from the Forest Service, the holder shall make any additional payment required to ensure that the correct ski area permit fee is paid for the past year's operation.

5. All permit fee calculations and records of sales are subject to review or periodic audit as determined by the authorized officer. Errors in calculation or payment shall be corrected as needed for conformance with those reviews or audits. In accordance with the Fee Payment Issue clause contained in this authorization, interest and penalties shall be assessed on additional fees due as a result of reviews or audits.

C. Correcting Errors. Correction of errors includes any action necessary to calculate the holder's sales or slope transport fee percentage or to make any other determination required to calculate permit fees accurately. For fee

calculation purposes, an error may include:

- a. Misreporting or misrepresentation of amounts;
- b. Arithmetic mistakes;
- c. Typographic mistakes; or
- d. Variation from generally accepted accounting principles (GAAP), when such variations are inconsistent with the terms of this permit.

Correction of errors shall be made retroactively to the date the error was made or to the previous audit period, whichever is more recent, and past fees shall be adjusted accordingly.

D. Fee Payment Issues.

1. **Crediting of Payments.** Payments shall be credited on the date received by the deposit facility, except that if a payment is received on a non-workday, the payment shall not be credited until the next workday.
2. **Disputed Fees.** Fees are due and payable by the due date. Disputed fees must be paid in full. Adjustments will be made if dictated by settlement terms or an appeal decision.

3. Late Payments

- (a) **Interest.** Pursuant to 31 U.S.C. 3717 et seq., interest shall be charged on any fee amount not paid within 30 days from the date it became due. The rate of interest assessed shall be the higher of the Prompt Payment Act rate or the rate of the current value of funds to the Treasury (i.e., the Treasury tax and loan account rate), as prescribed and published annually or quarterly by the Secretary of the Treasury in the Federal Register and the Treasury Fiscal Requirements Manual Bulletins. Interest on the principal shall accrue from the date the fee amount is due.
- (b) **Administrative Costs.** If the account becomes delinquent, administrative costs to cover processing and handling the delinquency shall be assessed.
- (c) **Penalties.** A penalty of 6% per annum shall be assessed on the total amount that is more than 90 days delinquent and shall accrue from the same date on which interest charges begin to accrue.
- (d) **Termination for Nonpayment.** This permit shall terminate without the necessity of prior notice and opportunity to comply when any permit fee payment is 90 calendar days from the due date in arrears. The holder shall be responsible for the delinquent fees, as well as any other costs of restoring the site to its original condition, including hazardous waste cleanup.

4. Administrative Offset and Credit Reporting.

Delinquent fees and other charges associated with the permit shall be subject to all rights and remedies afforded the United States pursuant to 31 U.S.C. 3711 et seq. and common law. Delinquencies are subject to any or all of the following:

- (a) Administrative offset of payments due the holder from the Forest Service.
- (b) If in excess of 60 days, referral to the Department of the Treasury for appropriate collection action as provided by 31 U.S.C. 3711(g)(1).
- (c) Offset by the Secretary of the Treasury of any amount due the holder, as provided by 31 U.S.C. 3720 et seq.
- (d) Disclosure to consumer or commercial credit reporting agencies.

E. **Access to Records.** For the purpose of administering this permit (including ascertaining that fees paid were correct and evaluating the propriety of the fee base), the holder agrees to make all of the accounting books and supporting records to the business activities, as well as those of sublessees operating within the authority of this permit, available for analysis by qualified representatives of the Forest Service or other Federal agencies authorized to review the Forest Service activities. Review of accounting books and supporting records shall be

made at dates convenient to the holder and reviewers. Financial information so obtained shall be treated as confidential as provided in regulations issued by the Secretary of Agriculture.

The holder shall retain the above records and keep them available for review for 5 years after the end of the year involved, unless disposition is otherwise approved by the authorized officer in writing.

G. Accounting Records. The holder shall follow Generally Accepted Accounting Principles or Other Comprehensive Bases of Accounting acceptable to the Forest Service in recording financial transactions and in reporting results to the authorized officer. When requested by the authorized officer, the holder at its own expense shall have the annual accounting reports audited or prepared by a licensed independent accountant acceptable to the Forest Service. The holder shall require sublessees to comply with these same requirements. The minimum acceptable accounting system shall include:

1. Systematic internal controls and recording by kind of business the gross receipts derived from all sources of business conducted under this permit. Receipts should be recorded daily and, if possible, deposited into a bank account without reduction by disbursements. Receipt entries shall be supported by source documents such as cash-register tapes, sale invoices, rental records, and cash accounts from other sources.
2. A permanent record of investments in facilities (depreciation schedule), and current source documents for acquisition costs of capital items.
3. Preparation and maintenance of such special records and accounts as may be specified by the authorized officer.

C. **Revocation for Reasons in the Public Interest.** If, during the term of this permit or any extension thereof, the Secretary of Agriculture or any official of the Forest Service with delegated authority determines in planning for the uses of the National Forest System that the public interest requires revocation of this permit, this permit shall be revoked after one hundred-eighty (180) day's written notice to the holder. The United States shall then have the right to purchase the holder's improvements, to remove them, or to require the holder to remove them, and the United States shall be obligated to pay an equitable consideration for the improvements or for removal of the improvements and damages resulting from their removal. If the amount of consideration is fixed by mutual agreement between the United States and the holder, that amount shall be accepted by the holder in full satisfaction of all claims against the United States under this clause. If mutual agreement is not reached, the Forest Service shall determine the amount of consideration. If the holder is dissatisfied with the amount determined by the Forest Service, the holder may appeal the determination under the agency's administrative appeal regulations.
