### Quick Picks

**For All Employees**

- **The Forest Service Anti-Harassment intranet page is now available**  
As the Forest Service continues its efforts to promote a safe and harassment-free workplace, we are pleased to announce the launch of the [Anti-Harassment intranet page](#). The Anti-Harassment intranet page was created to provide a single dedicated resource for all employees to receive current and accurate information regarding the Anti-Harassment policy and program. We encourage you to visit the Anti-Harassment intranet page at your earliest convenience to learn more about the program. This website offers latest news, frequently asked questions, official correspondence, forms, contact information, and details about the recently established Harassment Reporting Center. By "Standing Together Against Harassment," we can all make a difference and promote a safe, healthy, and harassment-free workplace.
- **USDA Equal Opportunity Public Notification Policy**  
USDA Departmental Regulation DR 4300.003 [USDA Equal Opportunity Public Notification Policy](#) (PDF; issued June 2, 2015.) provides guidance for the inclusion and posting of the USDA nondiscrimination statement by the Agency and also recipients of FS Federal Financial Assistance. The DR contains guidance on the use of the statement on all materials produced for public information, education and awareness. The nondiscrimination statement is now available in Spanish and can be found on the Civil Rights website <http://fswweb.wo.fs.fed.us/cr/pdc.html>. Please ensure all Region, Station, and Area web sites contain links to the statements at <http://www.fs.fed.us/about-agency/disclaimers-important-notice>. Please contact your local Civil Rights Service Center for additional information.
- **Strategic Plan 2015-2020**  
The 2015-2020 Strategic Plan is now available. A plan that embodies our commitment to SUSTAIN our nation's forests and grasslands, DELIVER benefits to the public, APPLY knowledge globally, and EXCEL as a high-performing agency. These are the principles by which we will act and operate as we continue to guide this organization for today's and future generations.  
The plan and a message from the Chief can be found at <http://www.fs.fed.us/strategicplan/>.
- **Message to employees regarding petition**  
It has come to my attention that some employees recently received an e-mail from a non-Forest Service account asking recipients to sign a petition to elected officials. While an employee may choose to sign such a petition outside the federal workplace and in their personal capacity, I want to remind you not to forward the message to other government e-mail accounts, nor use government time and resources (including government computers, tablets, phones, etc.) to contact elected officials. Engaging in such activity may violate the ethics regulations and laws prohibiting political and lobbying activities while on duty, in the federal workplace, or using government equipment.  
I've attached for your reference guidance we previously received regarding the rules governing political activities. You may also wish to consult the following link for lobbying restrictions: <https://www.ethics.usda.gov/>. If you have any questions regarding this issue, or any other ethics issues, please contact USDA's Office of Ethics at [FSethics@oe.usda.gov](mailto:FSethics@oe.usda.gov) or e-Fax: 855-245-9806.

Lenise Lago  
Deputy Chief, Business Operations

Site contents

The Forest Service Directive System consists of the Forest Service Manual and Handbooks, which codify policy and procedure. The system serves as the primary basis for the internal management and control of the Forest Service. It is the source of administrative direction to Forest Service employees.

The Office of Regulatory and Management Services (ORMS) – Directives and Regulations (D&R) branch provides a "Providing excellence in customer service and program delivery through efficient and effective business processes" success depends on working with staffs to (1) establishing new or revising existing directives, and (2) (3) making these processes as less stressful as possible.

The D&R Site was designed to provide guidance and general information to those persons who are involved in the Directive and Regulatory process. This site is intended to be used as a resource tool in preparing the documents needed to establish or amend a Directive and submit a complete regulatory package for review.

## Directives:

To support the Forest Service operations, the directives system serves as the primary basis for internal management and control of the Forest Service. The system codifies the Agency's policy, practices, and procedures. Lastly, it is the primary source of administrative direction to Forest Service employees.

In order to have an effective system of policy and program direction, the following principles must be followed:

- (1) The Directive System is the one and only place where Forest Service policy and procedure:
