

# Native Seed & Plant Materials Restoration Project

Wallowa-Whitman National Forest

## 2006 Accomplishments:

**Proposal:** Expand areas from where seed is collected, increase variety of native grass and perennial forb species, and develop seed inventory on-hand to meet a variety of restoration needs across the Forest. Increase knowledge of collection, propagation, and revegetation methods.

### **Funded outputs:**

**Collections in 2006:** 70 lbs. native grass seed (6 species)  
90 lbs. native herbaceous (8) species

### **Collections under contract for 2007:**

35 lbs. native grass seed (2 species)

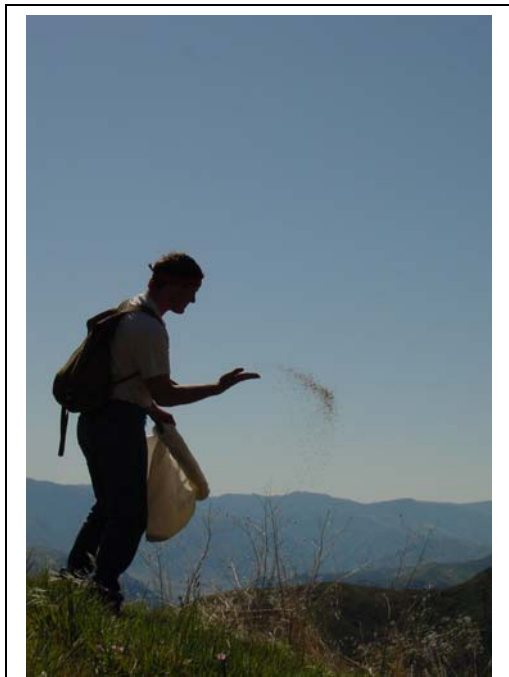

### **Seed Propagation in 2006:**

2,350 lbs native grass seed (3 species)  
10 lbs. native herbaceous forb seed (2 species)

### **Seed Propagation under contract for 2007 & 2008:**

500 lbs. native grass seed (2 species) - 2007  
900 lbs. native grass seed (3 species) - 2008  
3 herbaceous forb species under contract for 2007/08

**Seeding:** Approximately 460 acres were seeded with native grasses and forbs on 13 projects across 3 Ranger Districts. Projects included road decommissioning, timber sale landings, noxious weed treatments, site rehabilitation following a train derailment, and Fire Suppression Rehab and BAER activities on 3 fires across 4 ranger districts.

*Hand seeding native grass seed on  
Wallowa Valley Ranger District*

*Native Seed Inventory in Storage at  
La Grande Ranger District*

Year awarded: **2006**

Project completion: **2008**

Report number: **1 of 3**

Expenditures:

- **FY06 funding \$64,000**

Partners/Contractors:

**5 Partnerships**

**8 Contract seed collectors/growers**
