

# Seeley Lake Native Plant & Pollinator Garden

## 2009 Accomplishments

**Native pollinators play a pivotal role in our lives and natural ecosystems. At the Seeley Lake Ranger Station, we re-established a native plant garden and enhanced it for pollinators.**

**We planted more than 40 species of native plants. We also worked with the Seeley Lake 4-H Club to build mason bee houses & to label the native plant species with stones.**
