

Clearwater National Forest Native Plant and Pollinator Garden

FY10 Native Plant Material Accomplishments

The Clearwater National Forest will be developing a native plant pollinator garden at Musselshell Meadows.

Non-monetary accomplishments for 2010:

- Due to staffing changes, there is a new project leader as of August 2010.
- Added the Clearwater RC&D as a partner
- Obligated money for project
- Met with Orofino High School representative, Forest botanist, and volunteer .
- Chose a garden location
- Developed a garden plan which will be implemented in 2011.
- Conducted a class field trip to project site with Forest Botanist and project leader.

Using FY10 NFN3 funds we purchased the following:

- Purchased nitrogen, phosphorous, & potassium soil test kits for use at the garden site by the Orofino High School environmental science class.

Musselshell Meadows

Year awarded: FY10 NFN3 funding

Project completion: 2013
